

Message from Craig

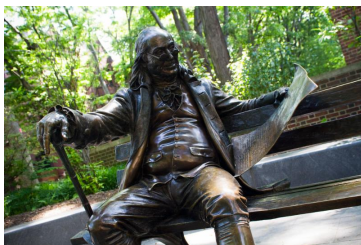

Have you ever had someone say to you, when they learn you work at Penn, "it must be nice to have summer off". As if! While it's true that campus has fewer faculty and students over the summer, it is no less busy for us in administration, and that is why building in downtime into our schedules is critical for our overall health. If you're lucky, you may have a trip planned, or some beach time at the Jersey Shore. However, if you are thinking staycation, or maximizing

your weekends this summer, our great city of Philadelphia has a lot to offer for a fun-filled summer. As we transition from Spring to Summer, the season for reward, celebration, and FUN, I wanted to dedicate this issue to making it easy for you to find fun. Click on the photos below, and you may be surprised at how many interesting (and free) activities are going on right now in your area. And of course, check out *Craig's List*, for the latest news & announcements from across the EVP Divisions. I wish you a safe and relaxing summer!

Best,
Craig

P.S. If you're feeling inspired, tweet some of *your* summertime fun photos to [@PennEVP](https://twitter.com/PennEVP)
